

**BOURNEMOUTH MAS CLUB CLASSIC RUBBER  
MIDDLE WALLOP - APRIL 2011**

**Mike Turner receives the Cup from John Taylor**

The very worthy winner with a clear margin was **Mike Turner** and indeed his first win in the event. For the Strato Hawk design it was its second time in first slot. Close behind were **Ron Marking** up from Cornwall and **Ted Tyson** from Bournemouth. Club Classic continues to be popular and we can now regard it as firmly established with two annual events in the south. With 12 entrants this year no model type stood out with seven different types in evidence. Two Last Resorts, Urchins, Mentors, Boxalls and Trip Sticks produced no clear ascendancy.

This was the 8th annual Club Classic Rubber event staged at the Bournemouth MAS Gala. Although the wind was fairly strong from the north, it was warm and summer-like. Unfortunately this wind direction was difficult causing models to be flown close to and parallel with the western perimeter. The maximum was set at just 100 seconds to minimise loss of models into the village area. For the same reason a limited fly-off was adopted. My first experience of this was at Odiham last year and it is very effective. The Bournemouth Club have since adopted it for domestic events at Beaulieu. The D/T limit was set at 100 seconds and the actual D/T timed along with the total flight. Any positive error in D/T was doubled to establish a penalty and subtracted from the overall flight time. I heard no dissent about the arrangements and several comments of approval.

Two names are sadly missing from the results this year, Vic Wilson and Laurie Barr both previous winners. I recall how pleased Laurie felt when Club Classic was introduced, because it gave him the chance to air his Trip Stick in competition once more. May Trip Sticks and all the other interesting Club Classic designs grace our skies for very many years to come. Thank you all for your support, we hope everyone will revisit Club Classic at Middle Wallop in August.
